

SkyMen/SkyWomen The Great Union

a journey of initiation and encountering

September 10th to 17th, 2022
Villa de l'Arzelier, Isère, France

Some encounters can nurture us deeply,
as long as we are available to what comes,
to what has been there all along, perhaps forever?

This retreat proposes a profound and healing experience.

Women and Men discover a mode of encounter in a peaceful
space, first with themselves and then with each other.

The Grand Union offers a unique and enriching
adventure that transforms our life.

SkyMen/SkyWomen

The Great Union

a journey of initiation and encountering

During the first five days apart, Women and Men explore their needs, harmonize and prepare themselves... The last two days are dedicated to a powerful Ritual of encounter, towards the unique point where everything comes from and returns to.

Sharing a gift of brotherhood and benevolence and commit into a profound, transformative, and joyful journey, to find one's place as a man in connection with one's soul.

This sacred time prepares us for a unique and healing encounter with the Woman.

In a community of women, we recognize the feminine and all its aspects, to overcome our ancestral wounds, reveal our ecstatic nature, inner wisdom, and freedom to love.

This sacred time prepares us for a unique and soothing encounter with the Man.

**Pierre
Darroux**

**Bodhi
Sambhava**

Bodhi seeks connection to the feminine through the water and has created Aqua-Tantra. She is a Healing Dance teacher, Pelvic Heart Integration and Aquatic Integration therapist.

Pierre has been coaching and encouraging men individually and in groups for years. He shares an accessible, practical and joyful way of teaching transformation.

Both are certified **SkyDancing® Tantra** teachers.
