An Initiatory Journey into the Art of Conscious Meeting

April 3-10, 2021
Domaine Les Fougères, Drôme region, France

Our lives can be deeply nourished by certain encounters. But how to find the hidden richness in each story, whether it is someone you are meeting for the first time or someone who might have been there forever?

This retreat offers a deep, healing and regenerating experience. It allows a meeting with the Self. It gives men and women the opportunity to learn how to meet differently from a peaceful and harmonious space.

This retreat is a particularly rich experience for couples.
