SkyMen

a Tantric Path for men

This week offers original practices for a Tantra specifically dedicated to men, derived from years of research and history within the SkyDancing® Tantra school. SkyMen is the second step of our offering for men, after the men/women retreat « The Great Union ».

This retreat involves a 3-fold journey:

- **Being a man with body and heart:** back to embodiment and heart-opening.
- **Masculine sexuality:** towards a renewed and sovereign sexuality that is free, powerful and respectful.
- **A man's journey:** space, consciousness, spirituality.

SkyMen: a whole week dedicated to men.

A gift of brotherhood and benevolence to find one's own path as a man.

SkyMen is facilitated by Pierre Darroux and Johann Azuelos. Both have accompanied and supported men on the tantric path for many years. For this retreat, they have composed a rare and deep program to support men's growth.

SkyMen is an experience that, above all, invites to inner peace and freedom.

« Our approach is both a human adventure and an initiation. It proposes a particular way of orienting one's path towards a form that feels more true, more alive and more free. »

Pierre Darroux & Johann Azuelos
SkyDancing Tantra certified teachers

Date: every year in April
